About us

LED displays have emerged as one of the most appealing marketing medium to showcase your brand USP to huge crowd. In India, Video Wall India is the first choice of experts in LED display solutions. We cater to businesses across scale and size, and help our valuable clients to promote their brand value to the target audience.

We possess all the resources, experience and skill to deliver amazing LED display solutions; that can generate your brand the maximum visibility. We strive to take your brand to an altogether new level of growth with our varied range of screens whether Indoor or Outdoor and those are like multiple or giant.

We started as an LED rental company in 2007 and emerged as market leader in end to end LED screen marketing solutions in India and abroad. From live events on a huge scale to indoor projections for large scale enterprises, government agencies or start-ups, we are the go-to brand for top notch LED screens for any type of events. Our sales horizon is now started penetrating the African continents with our innovative solutions.

## Holy Kumbh Mela - 2019

# Installations At Public Places

Visual Impact And Reach Two Of The Biggest Strengths Of This Medium

LED display board outside of the Western Railway building at **Churchgate** station - Mumbai

## Give your brand the traction it deserves

LED screens as marketing and promotion medium are considered to be fairly a new channel. However, this medium has already proven its mettle with complex installations that were successful in meeting its stated promotional information dissemination, and marketing objectives. This has led to an exponential surge in the demand for superior quality LED screen management and solutions delivery across multiple industry vertical. This is where we at Video Wall India (VWI) come across as dependable partners in your business success.

Your revenue generation goals are met effectively with the elevated user experience. This is done by blending technology with smart innovation in LED screens to deliver intuitive interactivity. This extend is blooming our ability to make a meaningful contribution to businesses in multiple industries.

We respond by creating personalized ambiances – from a formal corporate set up to a highly informal sports event or a high fashion couture event – serving for all this and much more.

We are fully equipped to deliver personalized LED screens to align to your precise requirement. The removal of the barrier to technical specifications like the pitch is what makes us the industry favorite to deliver a rich LED screen solution to our clients.
